*APR = Annual Percentage Rate. The Annual Percentage Rate is determined by adding 6.65 to 14.65 for Platinum Cards and 8.65 to 16.65 for Advantage Cards to the Prime Rate. The Prime Rate used to determine your APR is the rate published in the "Money Rates" table of The Wall Street Journal on the last Friday of each month; if the last Friday is a Federal Holiday the following day's Prime Rate will be used and is effective the first day of the following month. Rates may change after the account is opened.
